

STEERING WHEEL

Steering Wheel is approximately 12-1/4" diameter by 3" deep.

Tools required: Drill bit (see size below), drill, 1/2" socket with socket wrench, hammer.

INSTALLATION METHOD 1:

- 1) Drill a 5/16" diameter hole through the board.
- 2) Place the Spacer inside the Steering Wheel.
- 3) Hammer the carriage bolt into the back side of the board.
- 4) Place the Steering Wheel/Spacer over the end of the carriage bolt.
- 5) Secure the Steering Wheel to the board with the washer and the lock nut.
- 6) Snap the Steering Wheel Cap into the hub of the Steering Wheel.

INSTALLATION METHOD 2:

- 1) Drill a 3/16" diameter hole by 1" deep into the board.
- 2) Place the Spacer inside the Steering Wheel.
- 3) Secure the Steering Wheel to the board with the washer and the lag screw.
- 4) Snap the Steering Wheel Cap into the hub of the Steering Wheel.

Please note: Steering Wheel is intended for make-believe-play by children.
